Introduction to woodwork

4.5 day

£600 inc VAT

This one week course begins with the basic tool maintenance and application disciplines from the one day course and then builds on these skills so the student can gain confidence to work on their own projects at home or arrange to complete one of the many projects on offer here at the college.

Skills on offer are: Hand tool types, procedures and use. Adhesives, timber preparation, face side face edge, practical housing methods, sawing and chiselling, halving joints, mortice and tenons.

All practical exercises are dependent on the time taken to complete the foundations.

NB: Courses can be extended or carried on at a later date if desired.
