IBTC Course Details Woodworking & Joinery Skills

12 Week Course

£5950 inc VAT

This basic joinery course is the first element of both our furniture and boatbuilding courses no previous experience of woodworking is necessary.

Practical from day one, it will introduce you to different types of wood, their properties and uses; care and use of hand tools with particular emphasis on sharpening and setting up.

You will develop your hand tool skills, learn wood preparation techniques, basic joints and setting out. You will need a set of hand tools which can be purchased from the college or bring your own tools with you. We also have some loan sets available for use on the course to get you started.

During this intensive 12 week course you will build your own:

Bench hook, mallet, oil stone box, level, tool box, bollow plane, oar and a grating, all of which you will take home with you at the end of the course.

International Boatbuilding Training College
Sea Lake Road, Oulton Broad, Lowestoft, Suffolk. NR32 3LQ
